

FORMERLY KNOWN AS FIRST ASSEMBLY CHRISTIAN SCHOOL

1827 NE 14TH STREET OCALA FLORIDA 34470
352-351-1913

Wellness Policy

Parents will be required to provide the necessary medical history. This will include a current immunization record and a physical examination form (within the past year). It is required by law that a copy of the child's birth certificate be on file at the school.

Generation Academy, formerly known as First Assembly Christian School will continue to work with our local health department to follow current Centers for Disease Control (CDC) guidelines

NO CHILD MAY ATTEND OR REMAIN AT THE CENTER WITH ANY OF THE FOLLOWING SYMPTOMS:

- Severe coughing, causing a child to become red or blue in the face or to make a whooping sound; difficult or rapid breathing
- Stiff neck
- Green runny nose
- A temperature over 101 degrees
- Vomiting
- Diarrhea (more than one abnormally loose stool within 24 hours)
- Conjunctivitis (pink eye)
- Lesions, sores, or spots on hands, feet, and mouth
- Itching associated with suspicions of scabies, impetigo, or ringworm
- Symptoms identified by the CDC associated with COVID-19, i.e.,
 - Cough
 - shortness of breath or difficulty breathing
 - fever or chills
 - muscle or body aches
 - vomiting or diarrhea
 - new loss of taste or smell, or additional symptoms identified by the CDC
- Any other unusual sign or symptom of illness

The child will be unable to return to school until 24-72 hours (depending on the illness) after the last symptom without the aid of any medication.

If the child has been out due to an illness for 3+ consecutive days, the student must have a doctor's release to return to school. All hand, foot, and mouth sores on students must be fully healed before returning to school.

Preschool Specific:

If it is necessary for a child to take medication during the day, you will need to complete a medicine form in the office daily. Full instructions for administering the proper dosage MUST BE on the form, including a signature from the parent. The director or office personnel will administer the medication and initial, and write the time the medicine was given. All medicine MUST BE in the original package with the child's name labeled on the package using a pharmaceutical label. Prescription medications that are used on an "as needed" basis require the parent/legal guardian to provide additional documentation on an authorization form to describe symptoms that would require the medication to be given.

GENERATION ACADEMY

FORMERLY KNOWN AS FIRST ASSEMBLY CHRISTIAN SCHOOL

1827 NE 14TH STREET OCALA FLORIDA 34470
352-351-1913

If a child is injured during the day, a full accident report will be written and presented for your signature. If necessary, you will be contacted by phone. The accident reports are kept on file in the office. You may request a copy. All accident claims should be made through your own insurance company before making claims to the school insurance.

If a child is severely injured, paramedics will be called first, and then the parent.

A child identified as having head lice and or nits shall not be permitted to return until the following day, and only provided that treatment has occurred and has been verified by office personnel that there are no nits or lice present.

Immunization Policy

Generation Academy, formerly known as First Assembly Christian School will follow the Florida Guidelines for immunizations and immunization records. We might accept students with a medical or religious exemption from routine childhood immunizations. We must maintain documentation of a scheduled appointment or arrangement to receive immunizations for each child's enrollment portfolio. Due to accepting these Religious Exemptions at enrollment, some children in care may not have current immunizations.

By enrolling my child in Generation Academy, formerly known as First Assembly Christian School, I give consent for child care personnel to access my child's records.

Communicable Childhood Diseases

Upon having any of the following diseases, or any other diseases deemed communicable by a physician or the CDC, a child must have written consent from either a physician or health specialist to return to school, or be subject to school office approval for readmission:

Chicken Pox
Measles
Mumps
Pneumonia

Scabies
Ringworm
Impetigo
Pink Eye

CoronaVirus
Influenza
Whooping Cough
MRSA

Hand, Foot and Mouth
